RECORD PERFORMANCE

3670 ft Drilled on AIR
203 ft/hr Rotating ROP
167 ft/hr Average ROP
20 Hours Saved

Combining optimized drilling practices with superior tool design - NZone Guidance & DynoMax Drilling Tools teamed together to tackle an onerous air drilling job.

The result? An estimated 20 hours of drilling time was saved to the top of the Marcellus Formation in a challenging West Virginia Utica Play.

Any FLUID, Any FORMATION,
DYNOMAX Motors - getting the job done RIGHT!
